

Lindsay Stetson
Independent Designer

Genesis Design Kitchen to fit *your lifestyle*

- **Custom 3D interactive project photos** with elevation drawings on sophisticated

CAD added Kitchen Design Software – this gives the ability to really visualize the project and potential changes to design. It is such an essential tool to the overall design aspect of kitchen/bath remodeling

• **Attention to detail from concept to completion** – I work with my clients from the initial conversation all the way until the job is done. I have my hands in on every aspect, from products to design to construction to finances and it is ALWAYS beneficial to the client to have a personal relationship with someone they can call and ask any question to.

I'm a designer first, but I often act more as a project manager with my projects. Kitchen design and remodeling, the right way, is no easy task. It takes time, lots of consideration and it can get very overwhelming very fast for people. Having someone to orchestrate the details and the timing of all the different aspects is essential in minimizing potential errors and problems. I meet with my clients in their homes/spaces, go with them to pick out granite at the slab yard, make sure they have all the resources they need to make solid decisions regarding products and communicate with the contractor throughout the entire project.

- In-depth kitchen design consultation.
- Complete budget flexibility.
- Distributors for multiple cabinet lines.
Choose from an endless selection.

Value

with integrity

Michael Kaplan, owner

With over 100 years of combined trade experience, the employees at Genesis Flooring America are ready to exceed your expectations. In 2000, my daughter Aimee and I opened our unique flooring showroom in beautiful Carroll County. We have been blessed by quite a loyal following of customers who recognize our attention to detail. They love our relaxed showroom and youth entertainment area.

We have one of the widest selections and some of the best pricing in the area. We've done thousands of local flooring projects and we're told often that our installers are experienced and respectful. We are proud of the way our entire staff promotes the total Genesis experience. As the owner, my personal commitment to "value with integrity" stands as our company trademark and describes the way we conduct business.

Celebrating our 12th year in business.
